Impact of the Census

MONEY: California receives billions of dollars annually from Federal programs that use Census-derived data to determine funding allocations for health and human services, housing, nutrition, workforce development, transportation, and other services.

Source: Andrew Reamer, Research Professor, George Washington University Institute of Public Policy (FY 2015)

REPRESENTATION: After the 2010 Census, California failed to gain a Congressional seat for the first time since obtaining statehood in 1850.
